

PW353

4 port PoE PSE

Introduction:

PW353 is Four ports PSE (Power Source Equipment) board, it complies to IEEE 802.3 af.

PW353 can supply up to 15.4W to PD (Power Device), and supports both over current protection and short circuit protection.

Top

Features:

- DC Input: +9V to +36V
- Output voltage: +52V
- Current: Compliant IEEE802.3 af 15.4W

Specification:

Type	DC & LAN to 4 Ports PoE PSE
Input	DC & LAN
Output port	RJ45
Operating Temperature	-40°C ~ +50°C
Dimensions	35 x 102 mm
