LEX SYSTEM Next Generation Edge AI Computing SBCs and Systems with Hailo-8™ AI modules

LEX SYSTEM launched next generation Edge AI Computing solutions features pre-installed compact Hailo-8™ AI accelerator modules, enabling breakthrough performance with compact, low power consumption and cost-effective Edge AI devices across industries which including surveillance and security, intelligent manufacturing, smart city and transportation. LEX SYSTEM comprehensive range of platforms with ATOM Elkhart Lake, 11th Gen Tiger Lake-UP3, 10th Gen Comet Lake-S & 9th Gen Coffee Lake-S processors; equipped with multiple GbE LAN port & USB ports via wafer IO design delivers high flexibility toward expanded functions & hassle-free integrating within various mechanical enclosures for Edge AI applications.

About LEX Comptech

Established in 1990, LEX Comptech is an industrial computer manufacturer, provides LEX SYSTEM embedded solutions include designing and manufacturing of industrial motherboards, fanless embedded systems, rugged panel PC, in-vehicle fanless PC, network appliances, machine vision and automation controllers & IoT related solutions.

LEX SYSTEM's R&D team consisted with electronics, layout, system, mechanical, BIOS, firmware as well as software engineers, plus with experienced project management, in-house manufacturing and after sales service provides ODM /OEM customized products for various application-oriented projects.
